

COVID-19 Response – Community Wide Support and Volunteering

As part of our response to Covid-19, we have formed a volunteer strategy held by the Caring Community Circle and Covid-19 Action Group to help us navigate self-isolation and possible illness.

On-call volunteers

There is always someone on call who can be reached on **07395 305233**.

The on-call volunteer can

- Respond to urgent help requests
- Run errands, or find another volunteer to do it for you
- Help you set up future help requests

Online

There is also an online spreadsheet where you can enter requests for help and offers of support yourself. To get access to this contact Maria Cooper (see side menu).

Neighbourhoods

Neighbourhoods in the Park are also self-organising support. Here is a list of [neighbourhood contact people](#), who keep an eye out in their local area and can help to coordinate support on a neighbourhood level.
